

## Airport Purchasing Group

January 1, 2010

Reference: Membership Renewal

Dear 2009 members,

It is time to renew your membership to APG for 2010. A renewal invoice is attached.

All airports are a valuable asset to the APG for networking and collaboration of our unique procurement requirements. Many topics have been discussed at APG Forums including baggage solutions, ground transportation, snow chemicals and FAA funding to name a few. In 2010 there will be more focus on cooperative purchasing opportunities. The APG has a credit card program in place and a relationship is growing with the Houston Galveston Area Consortium (H-GAC) to increase the number of joint contracts that would benefit our members.

By renewing your membership, you will continue to receive access to a network of almost 200 other airport purchasing professionals. This network can become your most valuable asset when faced with tough purchasing questions.

APG will work closely with the National Institute of Governmental Purchasing when planning the 2010 annual APG conference in San Antonio in conjunction with the NIGP Forum in late August, 2010.

For question or further information about membership, please contact the Membership Chair, Brad Johnson at 612-726-8147 or email [brad.johnson@mspmac.org](mailto:brad.johnson@mspmac.org).

If you need to edit, delete or add members please complete the form on the membership only section of the Web site.
